Subject: Stevensville Main and 3rd St – 4 Way Stop

Thank you for the comments regarding this intersection. I would like to inform you the 4-way stop will be made permanent.

MDT reviewed the intersection and has determined the 4-way stop does provide an acceptable level of service. While this intersection control will add delay to travelers on Main Street it will improve safety and mobility for vehicles and pedestrians crossing Main Street at this location.

Based on the request by the City of Stevensville and the many citizens that have written and requested the traffic control to remain permanent, MDT will make this traffic control permanent. It may take a little bit of time to place the permanent signs, but the temporary signing will remain until the permanent signs are in place.

Again, thank you for your comments and feel free to contact me if you have any additional comments or concerns you would like to discuss.

Sincerely,

Dwane E. Kailey, P.E.
District Administrator
